

Continuous Inkjet

Videojet® 1220

Simpler operation. Less maintenance. Superior print quality. The Videojet 1220 is engineered to keep your line up and running longer.

Designed for customers who print six hours to eight hours per day, five days per week, the Videojet 1220 Continuous Inkjet printer provides up to 9,000 hours of production before required preventive maintenance. The 1220 is specifically designed to meet basic coding and production applications across a wide range of substrates. It is ideal for single to multiple shift applications, operating at moderate line speeds.

Uptime Advantage

- Advanced core technology includes all ink system filters and common wear parts
- Intervals of up to 9,000 hours between preventive maintenance
- Auto cleaning printhead for fast start-ups, even after extended shutdowns
- Optional internal air pump eliminates need for external air, minimizing potential for contaminants to enter the ink stream

Built-in productivity

- Ideal solution for a range of slow to moderate speed applications
- Print 1 to 5 lines of print for a range of coding needs
- Smart Cartridge™ fluid delivery system to virtually eliminate spills and help ensure the correct fluids are being used

Code Assurance

- Multiple password protected access levels to system control menus help avoid unintentional input errors
- Storable print messages with pre-set and calculated fields minimize required user input
- Easy Videojet CLARiSOFT® and CLARiSUITE™ integration allows for remote control of advanced code functionality

Simple usability

- Bright display with WYSIWYG and function keys for easy operation
- Store up to 100 complex messages for easy recall – store even more messages using a standard USB memory stick
- User levels to separate operation from installation and maintenance
